

Children's Ministry QT Equipping Class (Members Only)

Dear Parents, we all desire the best for our children. So, from their young age we start planning how they can learn many talents, perform well academically, and get admitted to prestigious schools...

The value of a Christian, however, does not lie only in a child's worldly achievements, but even more so in their pursuit of Christ. Setting up our children to have a thriving relationship with God and to live out a life that magnifies God's glory should be the goal we care about more and seek to pursue!

Children's Ministry QT Equipping Class is for children ages 8-11 years old. Prior to the age of 8 years old, children should have already experienced the established family QT culture in their own homes. During the early years, young children follow the spiritual disciplines of the family and slowly participate. At age 8, children can take the next step by joining the QT equipping class and begin learning how to do QT on their own alongside their family. This training is not "QT time with Miss Jessie," but rather, the main purpose of this equipping class is to train and empower children to do QT themselves after they have already observed and integrated into the QT culture of their family. Although age differences may seem insignificant to adults, small differences in age reflect huge developmental gaps in children. In the group of 8 to 11 years old, 8 years old is already very young. For children under 8 years old, being part of a group of older children is very stressful and can dampen their genuine interest in QT and lose confidence in continuing QT in the future. QT should start at home. Then, when children turn 8, they can take the next step and join QT training to learn how to do QT independently. This is an ongoing training course. Children can join only after they are 8 years old. Thank you for your understanding.
